Introduction

As students transition from school to post-school life, they will come into contact with multiple systems, entities, and professionals. For this reason, collaboration and interagency partnerships have long been promoted as essential components of effective transition practice.

This Resource Mapping Guide is designed to help Oklahoma Pathways to Partnerships Grant pilot and subaward transition teams identify, organize, and leverage community resources to create seamless transitions for students and youth with disabilities. By following the systematic process outlined in this guide, your team will be able to build a comprehensive, coordinated system of services that leads to improved competitive integrated employment and post-secondary outcomes.

What Is Resource Mapping?

Resource mapping is a strategic process to organize information and provide direction to meet common community goals. It focuses on what your community (schools, vocational rehabilitation, youth agencies, and organizations) has to offer by identifying available services and resources that can be aligned to define a flow of services and ultimately build a seamless transition system.

The major goals of resource mapping are to:

- Ensure all students and youth have access to a broader, more comprehensive, and integrated system of services
- Build on community strengths by increasing the frequency, duration, intensity, and quality of services
- Create synergy that produces services beyond the scope of any single system
- Provide families, students, and youth with disabilities more flexibility and choice in navigating systems

Why Is Resource Mapping Important?

A coherent transition service model allows for a more clearly defined pathway to employment. Work experiences and employment during secondary school years, family involvement, and direct connections with post-school supports are key services that lead to seamless transitions.

Research shows that paid work prior to school exit is the strongest predictor of post-school employment, regardless of disability label or intensity of special education services.

The Four-Step Resource Mapping Process

Resource mapping is a straightforward process that provides necessary information to define a sequential flow of services. This section outlines the four essential steps involved in mapping resources and developing your flow of services.

Step 1: Assessment or Pre-Mapping

This initial step establishes the foundation for successful resource mapping by bringing together the right partners and establishing a shared vision.

Key Activities

- **Identify partners and establish a task force** Identify partners and establish a task force.
- Establish a vision for aligning systems for improved transition services.
- Determine goals that align with Oklahoma's core student outcomes.

Step 2: Mapping and Developing a Flow of Services

This step involves collecting and analyzing data about available resources to create a sequential flow of services aligned with student outcomes.

Key Activities

- Select a process for gathering data to map resources.
- Identify and collect data about community partners and services.
- Synthesize and analyze data to identify patterns and gaps.
- Align resources and services into a sequential flow of services.

Important Considerations for Oklahoma Teams

- **Early Engagement in VR Services:** Early and active engagement with Vocational Rehabilitation influences improved employment outcomes. VR must provide pre-employment transition services to students starting at age 16 (or earlier if the state elects).
- **Pre-Employment Transition Services (Pre-ETS):** Map existing Pre-ETS in your schools: (1) Job exploration counseling, (2) Work-based learning experiences, (3) Counseling on postsecondary education, (4) Workplace readiness training, and (5) Instruction in self-advocacy.
- **Core Student Outcomes:** Align your resource mapping with Oklahoma's core student outcomes including competitive integrated employment expectations, financial literacy, career pathways, employability skills, job seeking skills, and work opportunities.

Step 3: Implementation of Services

Once resources have been mapped and a flow of services defined, the next step is to implement the coordinated system.

Key Activities

- Communicate the flow of services to students, youth with disabilities, families, and relevant stakeholders.
- Prepare staff in delivering services sequentially and provide necessary resources.
- Provide technical assistance and support in implementing the flow of services.

Step 4: Evaluation and Mid-Course Corrections

Continuous monitoring and refinement ensure that your resource mapping remains relevant and effective.

Key Activities

Continuous monitoring and refinement ensure that your resource mapping remains relevant and effective.

Best Practices for Oklahoma Teams

System Level Practices

- Obtain buy-in from leadership within all partnering agencies at the outset.
- Develop a clear communication plan, so all partners are informed efficiently and in a timely manner.
- Identify existing resources that align with your vision to define a seamless flow of services.
- Determine overlaps and gaps in services to maximize efficiency.

Student Level Practices

- Align the IEP and IPE, as well as other transition planning documents.
- Develop a transition plan to inform preparation for college and/or career.
- Design a course of study integrating community work experience and appropriate academic curriculum.
- Link eligible students to appropriate adult services prior to exiting school.

Potential Roadblocks and Solutions

Challenge: Partners Lose Momentum

Problem: Partners may lose momentum if they focus solely on long-term accomplishments.

Suggested Approaches:

- Gather input from partners and conduct ongoing evaluation.
- Establish both short-term and long-term goals.
- Make mid-course corrections as needed.

Challenge: Families Not Aware of Services

Problem: Families and students may not be aware of or connected to services necessary to maintain competitive integrated employment after high school.

Suggested Approaches:

- Share information early and often with students and families.
- Invite VR and adult service agencies to parent events and conferences.
- Provide brochures and information sheets with timelines.

Resource Mapping Worksheets

The following worksheets are designed to guide your team through each step of the resource mapping process. Several worksheets are pre-populated with Oklahoma statewide agencies and common transition services to give your team a starting point. Add your local partners and services to complete the mapping for your community.

Worksheet 1: Identifying Your Team

Step 1: Assessment or Pre-Mapping

Directions: Identify key partners and what they bring to the community mapping process.

Potential Partner	What Do They Bring?	What Is Their Self-Interest?	Steps To Elicit Involvement	Role in the Process?

Worksheet 2A: Oklahoma Statewide Partners

Step 2: Mapping & Developing a Flow of Services

Directions: The statewide agency partners are listed below. For each partner, identify their local contact information and the specific services they provide in your area. Add any additional local partners in the blank rows.

Statewide Partner	Local Contact or Office	Services Provided in Your Area
Oklahoma State Department of Education (OSDE)		
Department of Rehabilitation Services (DRS)		
Oklahoma CareerTech		
Oklahoma Works; Workforce Development		
Developmental Disabilities Services (DDS)		
Centers for Independent Living (CILs)		
<i>[Local School District(s)]</i>		
<i>[Local Employers]</i>		
<i>[Community Organizations]</i>		

Worksheet 2B: Employment Services Matrix

Step 2: Mapping & Developing a Flow of Services

Directions: Common employment-related transition services are listed below. For each service, identify which partners in your community provide that service and any notes about availability, eligibility, or contact information.

Service or Support	Local Partner(s) Providing This Service	Notes (Eligibility, Age Range, Contact)
Apprenticeship		
Assistive Technology		
Benefits Planning or Counseling		
Business Tours		
Career Awareness, Exploration, and Planning		
Career Interest Inventories		
Career Technical Education		
Community-Based Work Experiences		
Counseling (Vocational and Career)		
Financial Literacy		
Goal Setting		
Informational Interviews		

Service or Support	Local Partner(s) Providing This Service	Notes (Eligibility, Age Range, Contact)
Internships		
Job Shadowing		
Job Coaching and Support		
Job Development		
Job Placement		
Job-Seeking Skills Training		
Paid Employment Opportunities		
Pre-Employment Transition Services (Pre-ETS)		
Resume Development		
Self-Advocacy Training		
Social Skills Training		
Transition Assessment		
Transportation Assistance		
Work-Based Learning		
Workplace Readiness Training		

Worksheet 2C: Education & Training Services Matrix

Step 2: Mapping & Developing a Flow of Services

Directions: Common education and training services are listed below. For each service, identify which partners in your community provide that service.

Service or Support	Local Partner(s) Providing This Service	Notes (Eligibility, Age Range, Contact)
Academic Support and Tutoring		
Accommodations		
ACT or SAT Preparation		
Assistance with FAFSA		
Assistive Technology		
Career Technology Center Tours		
College Tours and Campus Visits		
Counseling on Postsecondary Options		
Courses of Study Planning		
Dual Enrollment Support		
GED Preparation		
Higher Education Transition Support		

Service or Support	Local Partner(s) Providing This Service	Notes (Eligibility, Age Range, Contact)
OK Promise or OK Access and Achievement Information		
Postsecondary Education Planning		

Worksheet 2D: Independent Living Services Matrix

Step 2: Mapping & Developing a Flow of Services

Directions: Common independent living and community participation services are listed below. For each service, identify which partners in your community provide that service.

Service or Support	Local Partner(s) Providing This Service	Notes (Eligibility, Age Range, Contact)
Accessing Community Resources		
Assistive Technology		
Behavior Support or Therapy		
Communication Skills		
Community-Based Instruction		
Community Experiences (Leisure)		
Cooking and Meal Planning		
Counseling and Mental Health		
Decision-Making Skills		
Driver's Education		
Emergency and Safety Skills		
Financial Management and Budgeting		

Service or Support	Local Partner(s) Providing This Service	Notes (Eligibility, Age Range, Contact)
Healthcare Management		
Household Management		
Housing Counseling		
Personal Care and Support		
Self-Advocacy		
Social and Emotional Skills		
Transportation and Travel Training		

Worksheet 3: Overlaps, Gaps, and Action Steps

Step 2: Mapping & Developing a Flow of Services

Directions: After completing the service matrices, analyze your resources for duplications (overlaps) and missing services (gaps). What implications do these have for your community’s service delivery system?

Overlaps (Duplicated Services)	Gaps (Missing Services)	Implications	Action Steps

Worksheet 4: Strategic Action Steps

Step 3: Implementation of Services

Directions: Develop specific strategies for addressing the gaps and priorities identified in Worksheet 3.

Priority: _____

Action Steps and Strategies	Lead Agency	Critical Partner(s)	Timeline	TA Needs

Worksheet 5: Technical Assistance Needs

Step 3: Implementation of Services

Directions: Identify technical assistance needs for your team. Categories may include: research, training, public relations and outreach, policy, funding, or development and dissemination of products and information.

Goal: _____

Technical Assistance Needs (What help does your team need?)	Who can help? (Local, state, federal resources)
1.	
2.	
3.	
4.	
5.	

Sustaining the Effort

Directions: Brainstorm your next steps to sustain your planning efforts. Consider short-term goals.

1. _____
2. _____
3. _____
